

Thank you for ordering from The Natural Deodorant Co.

We can't wait to give you our clean confidence feeling.

To keep your deodorant at its best, store it in a cool dry place out of direct sunlight. If your deodorant does become soft in warm temperatures, stir it and place in the freezer for an hour.

The packing peanuts in your box are made from non-GMO corn starch and are biodegradable. You can recycle/compost them in your food waste or dissolve them in the sink with warm water.

Don't forget to tag @naturaldeoco in your Instagram pictures. Show us what our little pots of freshness can do! #stayfreshouthere

How to:

1. Using a clean dry finger, scoop a small amount of deodorant from the pot.
2. Soften the deodorant between your fingertips on both hands by rubbing your fingertips together.
3. Apply thoroughly to each underarm until absorbed- but don't rub too hard. Do not apply to broken skin.
4. Enjoy 24 hour just-out-of-the-shower freshness.

*We do not recommend that you apply our Active Deodorant Balm straight after shaving. Instead, you may find it best to shave in the evening and apply your deodorant the following morning.
